

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

What collections of data is useful to other.

Let's hope this list doesn't turn into a popularity contest. Quality should be the main criteria

I need a list of majority based YouTube channels.

I want a useful data collection on top YouTube channels

It'll be interesting to see if any new channels made it to the top. The YouTube landscape is always evolving.

Did I count multiple channels of same content or not.

What are the data required to explore the top YouTube channels?

What kind of list did I need to prepare?

Is this beneficial for others.

What others might think about this collections of data?

Make a note on the most popular channels among people.

Notice the content creators that attracts most of subscribers need to follow

Collect the best and easily understanding channels for the interaction among the subscribers

Explore the data in various website to form a data collection for the shortlist of channels

The collections are very useful to understand and to easily verify the YouTube channels.

It doesn't contains the political affairs channels and it made me relief.

Now, I know a few newly known channels make to the top.

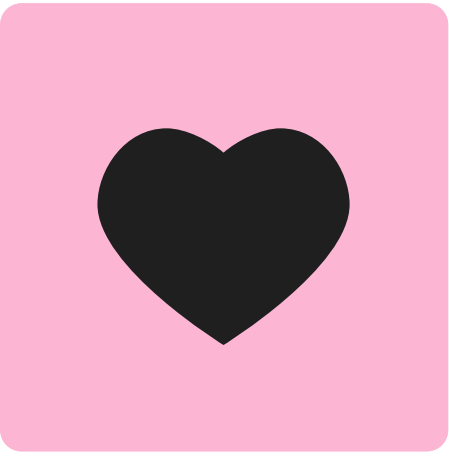

It enables to increase our knowledge to the extent in viewing the channels that shortlisted to its good content.

I amuzed that the top YouTube channel is tv serie's. That shown in our daily life.

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
